

Smart • Adaptable • Reliable

Two-Way Radio Chargers From Power Products

Single or multi-unit, desktop or in-vehicle, Power Products has the right charging solution for your two-way radios. Our line of Endura chargers features intelligent charging circuitry and is proven in the field. In addition, we offer models for Motorola, Kenwood, M/A-COM, Icom, Vertex Standard, plus other popular radio brands. For details on what makes Endura chargers the right choice for performance and value, contact us today.

The new Endura TWC1M is designed for in-vehicle use and operates from a 12V or 24V DC outlet.

The compact Endura TWC6M can be installed in an office, shop, or even a mobile command center.
